

Spring Newsletter – October 2016

Nuban Mower Centre 'For All Your Mowing Needs'

Spring is the time we can watch the lawn begin to grow behind us as we mow. The beautiful cool mornings and warm humid days is prime time to get your lawn & garden health into prime condition.

Ensure your lawn receives a good fertilizer before summer comes around to boost the health of the root system which will keep the grass thick & lush.

During the cutting season it is essential to cut often for the best results. If your mower has a mulch plug adapter this is a preferred choice to naturally feed the lawn for moisture retention.

New News

We have recently espoused new **Finance** Options for personal and business customers.

Flexible **Finance** options are available to ease that purchase decision from the value of \$500. Ask us in-store for more details and the quick easy paperless application.

If finance isn't an option, we can also set up a **Lay-by** on purchases with a payment plan that is tailored to suit your personal needs.

With Christmas fast approaching we can help with your shopping purchases for yourself or you're loved ones.

- Christmas Lay-by Payment Plans Available
- New Finance Options Available
